

"Nature's Gift from the Sunny South"

Shortens your food—Lengthens your life

Everything about Cottolene is clean and pure from its origin to its completion. Warmed into life by the sun on Southern Cotton Fields, nurtured by rain and dew, the Cotton plant finally concentrates in its seed that life-giving and life-sustaining quality which is the basis of Cottolene. Cottolene makes food nutritious, delicious and healthful. Then think of people using hog fat when they can get Cottolene!

FREE! Send us a two-cent stamp to pay postage and we will mail you a copy of our "Pure Food Cook Book," edited by Mrs. Mary J. Lincoln, containing nearly 300 valuable recipes.

EXPANDING BUSINESS LIGHTNING DELIVERY

New Equipment, New Employees and
New Lines of Activity.

The Lightning Delivery, a local concern for the transportation of merchandise from one point to another and for the maintenance of a quick messenger service, is fast expanding to meet the conditions of a rapidly growing city and a fast increasing patronage. It was started on a very modest scale a few years ago by Jasper Dobbs and has now grown to an institution that gives employment to about twenty people and has a wagon service of about a dozen vehicles. Recently it bought

VALLEY LANDS INSURANCE

the business of the Phoenix Transfer Co., owned by Messrs. Troop, Wheat and Stevens, and for the purpose of removing a competitor, but merely because the Lightning Delivery required more equipment and was able to buy what it needed already on the ground and in good working order. With the combined equipment the Lightning Delivery will now be able to handle a much larger business and with greater dispatch, providing one may conceive of anything quicker than lightning.

During his recent visit to Los Angeles Mr. Dobbs employed Ben Behney, for nine years a trusted employee of the Pioneer Transfer Co. of that city and who is now in charge of certain features of his business. Mr. Behney has had the widest experience in the handling of machinery and is an expert in moving safes, pianos, furniture and in fact all manner of cumbersome property that perplexes the ordinary truck man. The company has just had built a drop axle, spring wagon, especially for the moving of pianos and is ready to undertake anything in this line of work, knowing it can perform it with the least possible jar to the instrument and without destroying its usefulness. In this respect the Lightning Delivery expects to surpass any other food with the piano tuner. He must depend for business on the natural wear and tear of the piano players and not on the awkwardness of the truck man.

For the convenience of contractors, or householders who frequently desire it, the company has established a sand and gravel yard and now has on hand some seventy or eighty loads of sand and gravel which supply will be replenished from time to time by teams that are not otherwise engaged, and those wanting a load or either can secure it in a couple of hours by telephoning the office, as cheaply as they could send a team to the river after it and wait a day or two for its delivery. Another line of work for which the Lightning Delivery is now especially equipped is that of moving tent houses, many of which are in use in the suburbs and the nearby country districts. It has special wagons in fact for almost every kind of work. The company has also bought the old San Donato property on the corner of Jackson and First streets and has transformed it into a warehouse. The doors and roof are of iron and the floor of cement, while the walls are brick, thus making a practically fireproof building.

The messenger service of the Lightning Delivery is to be maintained as usual, offering quick service for the delivery of either messages or parcels.

COAST INQUIRIES CONCERNING PHOENIX

Arthur G. Huett Found a More
Acute Interest in the Valley There.

Mr. and Mrs. Arthur G. Huett and their little daughter returned yesterday from the coast. Mrs. Huett and daughter have been there since the early summer. Most of their time has been passed at Long Beach, though Mrs. Huett has been engaged as usual in the study of music, taking vocal lessons under Professor Lott, one of the most famous teachers of music on the Pacific coast. The new ideas she has gathered will be imparted to her numerous pupils in this city. The success of Mrs. Huett as a teacher of music is due in a great measure to her practice of steadily keeping abreast of her profession, just as successful physicians better fit themselves for their professions by hospital work and post graduate courses.

Mr. Huett has had two vacations this summer. The first was taken when he accompanied his wife and daughter to Long Beach, and the last one of two weeks when he went to bring them back.

Long Beach, already one of the prettiest and cleanest ports of Los Angeles, Mr. Huett believes is destined to be the overshadowing one. He found at Los Angeles, and elsewhere on the coast, a more acute interest in Phoenix than he had ever observed before. It seemed that everybody wanted to know more about the city and the valley, and their

opportunities, which are sadly restricted in Southern California. Merchants in all lines complain that the year has been a very unprofitable one and they see nothing encouraging in the immediate future. They had heard the situation, is entirely different in Phoenix and that it is constantly improving. They want to better their condition by coming here. There was also much inquiry regarding real estate.

Mr. Huett spent a considerable part of the two weeks he was there disseminating information concerning the various subjects, and giving addresses of Phoenix people who might give more. He also arranged with the inquiries to answer by letter all future queries addressed to him as to Phoenix.

CAMPAIGN SONGS IN CIRCULATION

Two Stanzas Calculated to Enthusias
Republican Voters.

Campaign songs have made their appearance. A reader of The Republican sent to this office two samples, issued by D. M. Kinney of Albany, N. Y. The words are by Mr. Kinney and the music by Frederick W. Mills. They go:
Get in Line for Big Bill Taft.—Chorus.
Blow the party's banners, blow them loudly,
Raise the party's banners, raise them proudly.
Taft is leading in the van, Bryan is an "also ran."
Get in line for Big Bill Taft. Who's he? Why President Taft.
We're going to Land Big Bill and Sunny Jim.—Chorus.
For us all want Bill—Big Ohio Bill, And Sherman from New York, our Sunny Jim.
Go way back Mr. Bryan, there ain't no use in tryin'.
The country wants Big Bill and Sunny Jim, Jim, Jim.
We're going to land Big Bill and Sunny Jim, Bill and Jim.

Common Sense And A Tablet

Do Away With Dyspepsia, Stomach
Trouble and Make Meals
a Pleasure.

When your stomach goes on a strike and mass meetings of indignation are held all over your body, then it is that you should sit up and take notice.

It is clearly and only a question of common sense—is the thing called Dyspepsia. Take away, by abuse, over eating, excesses and high living, the things which the stomach needs and you have dyspepsia and indigestion; then other maladies follow. These things are common sense.

The stomach is willing enough but you won't let it do its work. You take away the materials which are so necessary for it to use. Give back these materials and dyspepsia and indigestion flee and the whole machinery of man begins slowly to move and do its work. What the stomach needs is nerve force, fluids for its digestive glands, nourishment and power. All these necessities it takes from the blood. If dyspepsia gives nothing to the blood, the blood gives nothing to the stomach.

This is common sense also, pure, simple and unalloyed.

Stuart's Dyspepsia Tablets are common sense pressed by high power into tablets. In these tablets are powerful essences which go into the stomach, digest food, stop gas making, prevent decay of food, absorb the gastric juices, are absorbed by the blood and thus give it strength to furnish a better fluid for digesting the next meal. Every physician knows what comprises these tablets; every druggist has the same knowledge also. They are natural common sense digestives which do the work for the stomach quickly and well. Every drug store carries them, 50c per package. Send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

A LOAD OF STOCKS DEPRESSED THE MARKET

Holders Were Only Waiting For a
Higher Level.

New York, Sept. 17.—An upward reaction in prices of stocks in the early part of the day served to demonstrate that a large speculative liquidation was waiting to take advantage of better prices. A violent relapse from the advanced level was the consequence. The decline was generally accepted in the "Wall Street district" as due to a "political scare," although that term was somewhat variously defined. Advances from the iron and steel trade emphasized the slowness of the recovery and another reduction in the price of copper at the New York metal exchange served as an admonition to the same effect.

Bonds were easy.

STOCKS.
Amalgamated Copper, 74½; Smelt-
ing, 85½; Atchafalpa, 87; St. Paul, 135½;
New York Central, 102½; Pennsylvania,
111½; Reading, 130½; Southern
Pacific, 102½; Union Pacific, 130½;
U. S. Steel, 41½; U. S. Steel Preferred,
109½; Silver, 52½; Mexicans, 45.

metals at £121.50. The local market was easy and lower at \$28.37½ to \$28.62½. London copper was unchanged, £60 7s 6d for spot, £61 2s 6d for futures. The local market was weak and slightly lower at \$13.37½ to \$13.62½ for lake; \$12.35 to \$12.50 for electrolytic; \$12.00 to \$12.25 for casting.

Lead was lower in London; locally \$4.47½ to \$4.52½ prevailed. Spelter advanced 2s 6d to £19 12s 6d in London. Locally it dull at \$4.75 to \$4.80.

Iron was lower in the English market at 50s for standard foundry and 51s 4½d for Cleveland warrants.

GRAIN.
Chicago, Sept. 17.—Wheat—December closed ½ to ¾ under yesterday, at 70½ to 71½; September was ¼ lower and May a shade.

Corn was heavy; all day, December closing 1½ to 1¾ under yesterday.

Oats closed ¾ under yesterday.

CATTLE AND SHEEP.
Chicago, Sept. 17.—Cattle—Receipts 3500; market slow and weak. Beeves, \$3.69 to \$3.75; Texans, \$3.50 to \$3.60; westerns, \$3.20 to \$3.35; steers and feeders, \$2.69 to \$2.80; cows and heifers, \$1.70 to \$1.85; calves, \$6.00 to \$8.25.

Sheep—Receipts, 22,000; market steady. Natives, \$2.25 to \$4.45; yearlings, \$1.20 to \$1.75; western lambs, \$2.25 to \$2.50; native lambs, \$2.25 to \$2.75.

THE SUBJECT OF ROADS.

To Be Considered at an International
Congress at Paris in October.

Paris, Sept. 17.—Under the patronage of the French Automobile club an international congress on roads will be held in Paris early in October. Delegates from the automobile clubs of various nations have been invited. One of the main objects of the congress will be to discuss what alterations in road building should be brought about as the result of motor car traffic, which was quite unforeseen at the time the roads were built. It is probable that suggestions will be made for the construction of special roads for motors, with other parallel roads for ordinary traffic. Means of abolishing dust will also be debated.

The congress is under the patronage of the French government and several excursions will be made by the delegates over roads that have been rendered fit for motor traffic by various methods. The question of road regulations concerning motor

cars will also be discussed in connection with speed.

THE CZAR'S NAVY The Result of the Recently Concluded Maneuvers.

St. Petersburg, Sept. 17.—The Russian naval maneuvers for this year have just concluded, with very good result. Many of the admirals who took part in the war with Japan were present, among them being Admirals V. Essen, Ritzenstein and Shchegolev. The admirals were convinced that submarines give a minimum of help in war owing to their being exposed to destruction while preparing for diving. The division commanded by Admiral Ritzenstein beat that under Admiral Shchegolev in consequence of having more ships.

It is considered necessary to have huge and heavily armored men of war, while the smaller ships must be regarded only as reserves. All the Baltic men of war participated in the maneuvers which brought about many interesting situations and gave a new idea for future construction. Russia will now only build heavily armored warships.

A CHINESE PUZZLE.—The hair of Deputy Sheriff Wayne Davis is turning gray. He apparently is no nearer a solution of the puzzle caused by the Indian, Thomas Ray, alias Ray Thomas, alias Charles Munnell, alias Albert Ray, with H. L. Griswold's bicycle stock. The officer is going to take Ray and his partner, John Union Huick, to the reservation today in the

hope of recovering one or two of the wheels. He is not sure though that anything will be found. He is distrustful of the stories of Ray who is after all a source of entertainment. Whenever the deputy sheriff feels the need of change and variety he goes to the cell of Ray and listens to an entirely new tale about those bicycles.
